

OUR MANIFESTO

So much of health care these days seems to focus around “no.”

No, we aren't accepting new patients.
No, we don't have an available appointment.
No, the doctor isn't able to talk to you now.

We have a different, radical approach. **We say yes.**

Yes, we love new patients.
Yes, we have available appointments — many times same day.
Yes, our doctors are here on site to speak with you.
Yes, we can help you navigate insurance coverage.

As champions of patient choice for diagnostic radiology services, Bellingham Advanced Medical Imaging is here to give the power back to the patient.

With the increase of high deductible insurance plans, and higher deductibles in general, the price of imaging can be a big out-of-pocket expense for many people.

We don't think anyone should have to compromise quality or service to find state-of-the-art imaging at an affordable price.

Whether the need for an imaging service is routine or unexpected, scheduling and paying for that service should be as easy as possible.

Our responsive staff and physician-owners understand that this can be a nerve-wracking time for many patients who want answers as soon as they can get them.

We ensure this by putting the patient and their needs at the center of everything we do.

Medical issues can leave us feeling powerless.
Medical providers shouldn't.
Patients deserve more.

That's why we work everyday to empower smart health care choices.

**Bellingham Advanced Medical Imaging.
Welcome to yes.**
